

# ALCOHOL INK FOR TILES

## Supplies:

- 24 oz 90%+ Rubbing alcohol
- 12 - 4 oz Plastic bottles with lids
- 12 - 2 oz Plastic drop dispenser bottles with lids
- 12 - Sharpie pens of varying colors

## Tools:

- Small needle-nosed pliers
- Scissors
- Utility knife
- Gloves

## Directions:

1. Pour 2 oz of alcohol into a 4 oz bottle.
2. Use pliers to remove nib of one Sharpie. Drop nib into 4 oz bottle.
3. Use pliers to pry two halves of the Sharpie body apart.
4. Remove Sharpie ink swab. Use utility knife to cut through ink swab outer plastic lengthwise. Cut through the first layer of plastic coating only.
5. Use scissors to cut swab into thirds. Drop each third into the bottle with alcohol and matching nib color.
6. Repeat steps 1-5 with remaining Sharpies.
7. Let 4 oz bottles rest overnight.
8. Transfer half of each 4 oz bottle into a 2 oz Drop Dispenser bottle.
